PROFESSIONAL SUMMARY

Results-driven BI professional with **16+ years in MIS** and analytics, including **15+ years of Excel expertise** and **5+ years in Power BI**. Experienced in integrating Salesforce, ChurnZero, SurveyMonkey and **Datawarehouse** to build **automated dashboards and ETL pipelines**. Proven record of delivering on-time insights and cutting manual effort by up to 70% across SaaS, BPO, Healthcare and Telecom domains.

KEY HIGHLIGHTS

- **Power BI Data Warehouse Implementation:** Architected comprehensive data warehouse integrating **7+ data sources (Salesforce, ChurnZero, SurveyMonkey, Wrike, CSI, HRMS, Financial Systems)** supporting **25+ Power BI dashboards with real-time refresh capabilities**, serving 250+ users across Operations and Finance departments
- **Automated Reporting Infrastructure:** Developed **30+ interactive Power BI reports** with drill-down functionality, slicers, and dynamic filtering that eliminated 40+ hours of weekly manual reporting effort, improving decision- for executive leadership
- **Advanced Excel Solutions:** Created complex financial models processing 500K+ row datasets using advanced formulas (**INDEX-MATCH, SUMIFS, Array Formulas**), **Power Query transformations** reducing monthly close processes from 5 days to 2 days
- **ETL Pipeline Optimization:** Engineered Python and **Power Query-based ETL workflows that automated data extraction from multiple APIs**, reducing data processing time by 85% and eliminating 95% of manual data entry errors
- **Customer Success Analytics:** Built comprehensive **CS dashboard suite** tracking **NPS scores, health metrics, renewal forecasts, and churn risk** across 200+ enterprise accounts, contributing to 15% improvement in customer retention rates
- **Performance Management System:** Designed incentive calculation models and performance scorecards using **advanced Excel and Power BI**, processing variable compensation for 150+ employees with 100% accuracy and zero payment disputes
- **Data Quality Enhancement:** Implemented data validation frameworks and normalization processes that improved overall data enabling more reliable and strategic planning
